The Features of SUP Paddle Board

- 1) Highly Durable: We use a high-tech process to transform military-grade PVC into a rock-solid rigid platform. With a core of composite drop-stitch fibers connected to the nearly indestructible outer skin, Drift boards stand up to anything you want to do on the water.
- 2) Rigid Design: It feels very similar to a hard board. The board is made of Military Ultra Light PVC Drop Stitch Fabric. Constructed with additional PVC layer of board rails are highly strengthened the board.
- 3) Deck Features: 5mm Comfort diamond groove traction for grip. 316 Stainless Steel D-Rings and bungee on the front deck for storage.
- 4) Inflatable standup paddle board, paddle, high-end pump, leash, travel backpack, waterproof bag, removable fin, and repair kit.
- 5) Combined of technology of gluing and heat-bonding.
- 6) No twisting, no heating, no bubbles.
- 7) High quality fins.
- 8) High pressure pump, high quality paddle, and seat for option.
- 9) OEM is acceptable.

The Materials and Structures of SUP Paddle Board

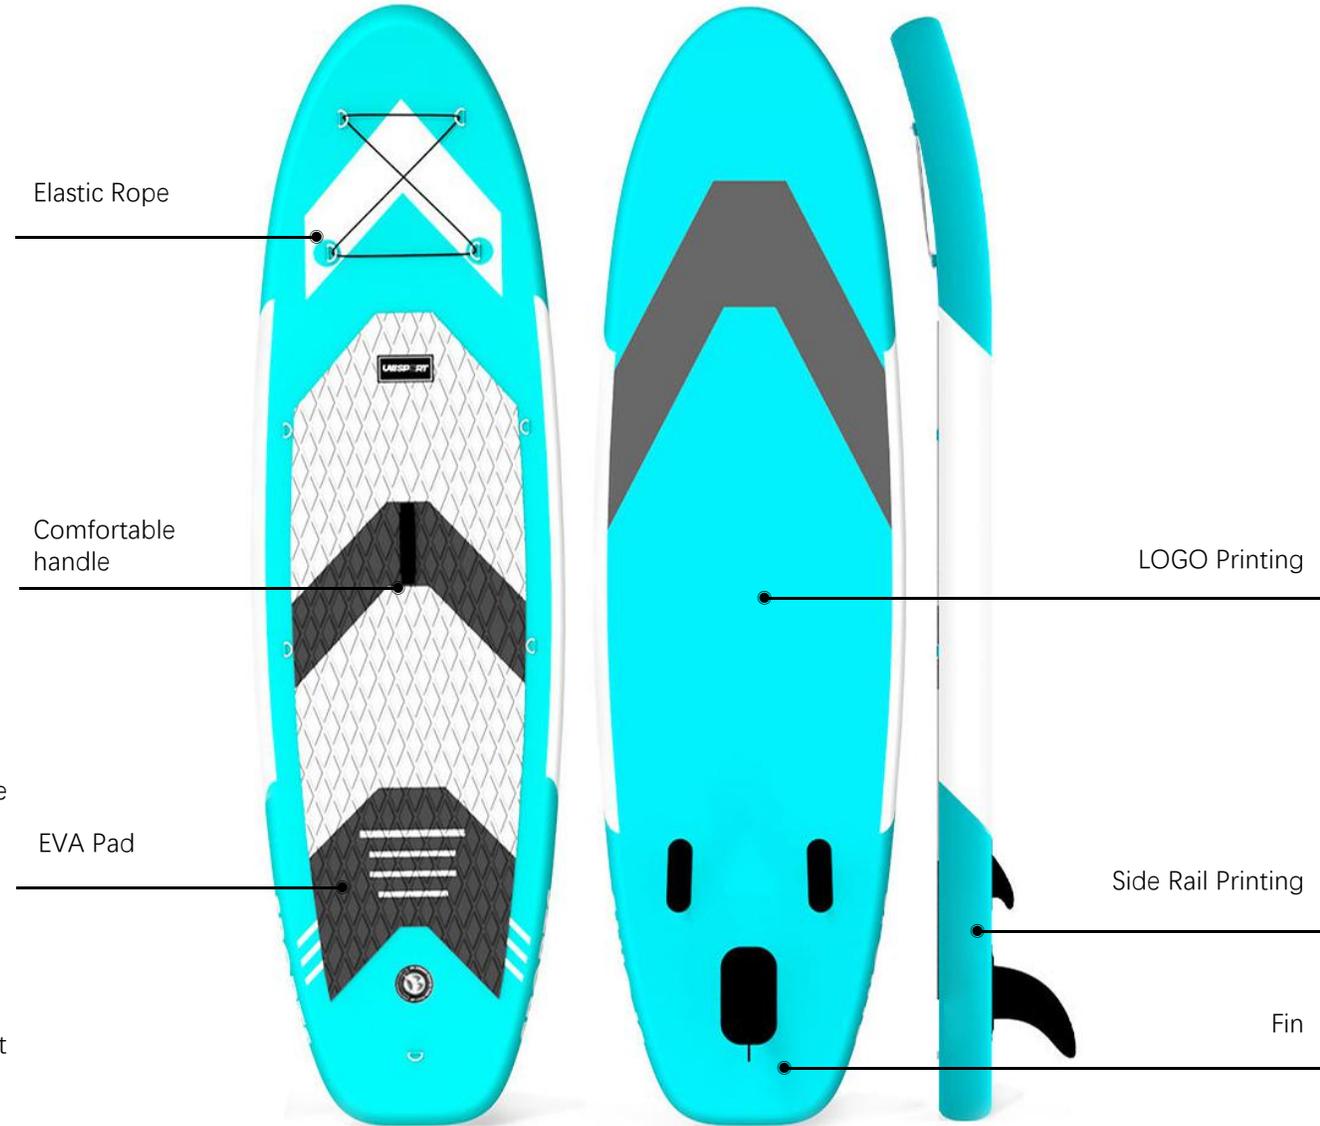

The Describe of Inflatable SUP Paddle Board :

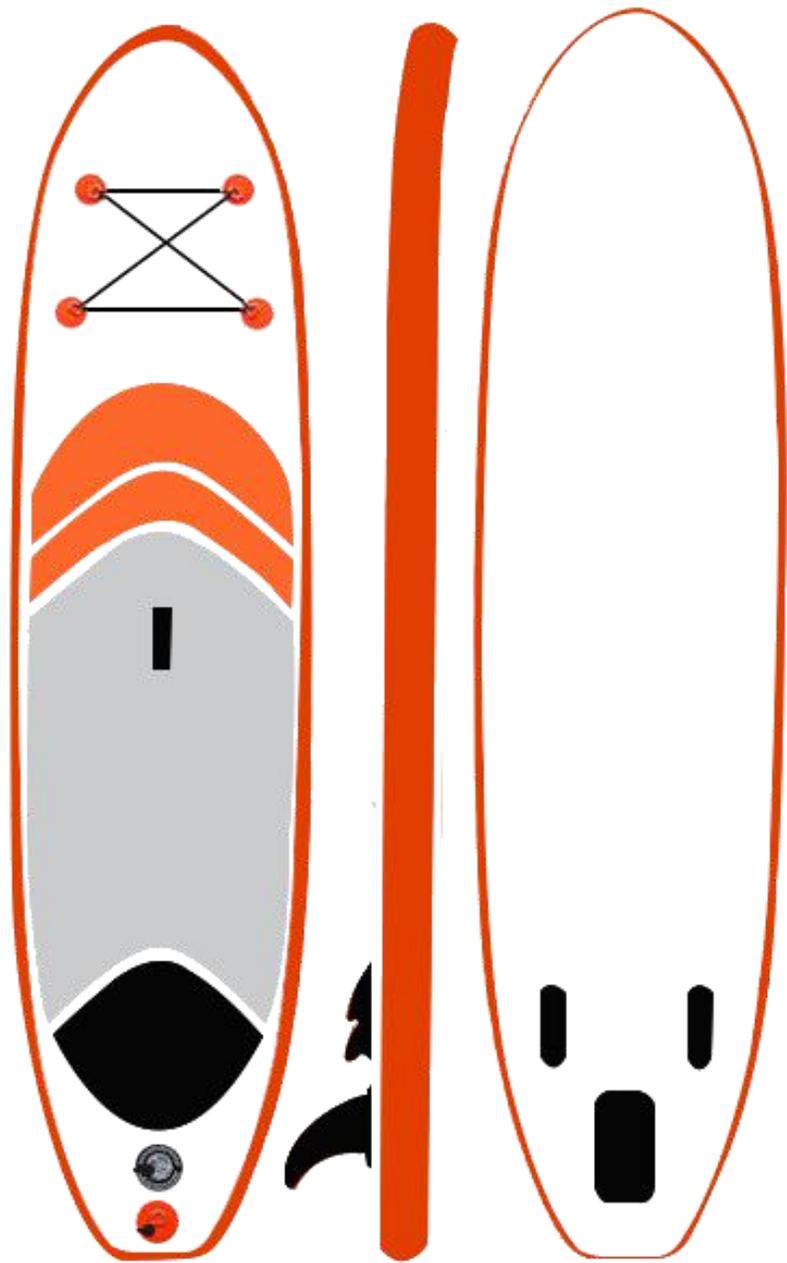

Stand up paddle board (also called stand up SUP paddle surfing board) is a new derivative of inflatable paddle board, which only emerged a decade ago, of inflatable paddle. SUP paddle board participants are propelled by a swimming motion, using their arms while laying, kneeling or standing on a paddle board to move forward in the ocean. Paddle boarding is a water sport that has been becoming more and more popular these years, and can be best performed in the broad ocean offshores.

Unisport 10'6" sup paddle board is for those with itchy feet, keen to get involved in a variety of different paddle boarding activities. Whether you are cruising on top of a pristine lake or transporting dog and child – this versatile board provides stability, safety, and comfort. A 80cm width, 109kg weight capacity, and easy inflatable structure make this board a beginner's dream. Ideal for younger or smaller paddlers in search of play.

Get a board you will love today. You can upgrade the board with your hobby. Like add four D-rings on EVA pad. Upgrade the valve. Change the color of the board. Double bungee. Change the handle place..... We can do anything with your mind.

226cm

15-20cm

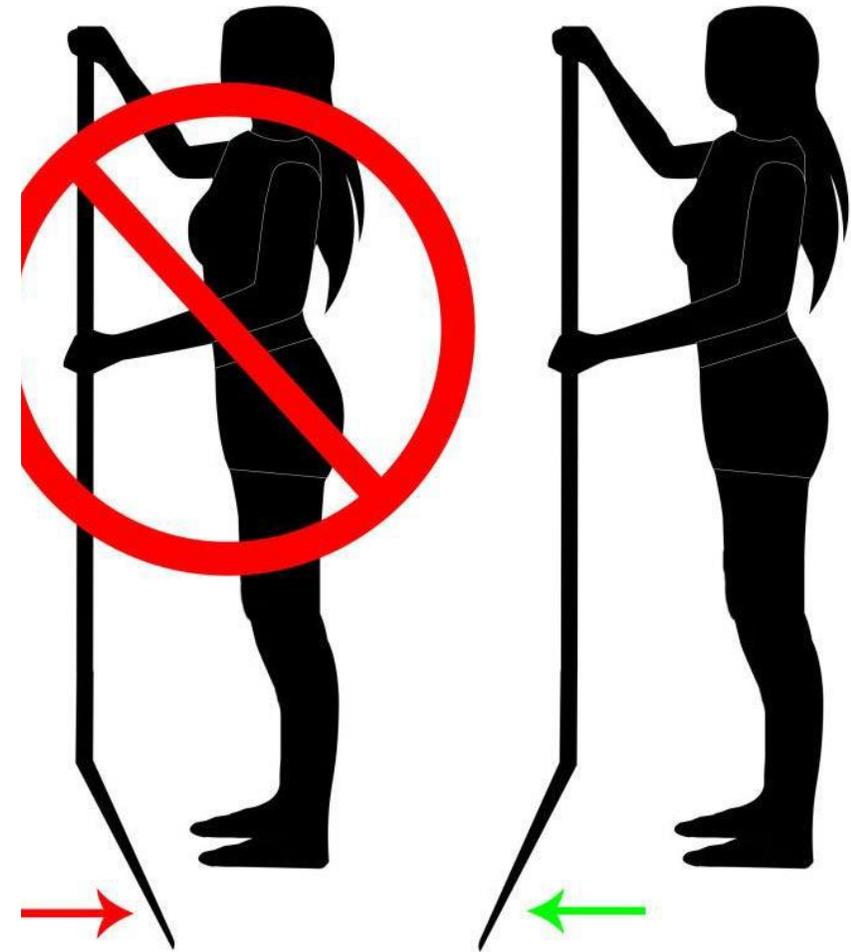

15-20cm

Paddle board size

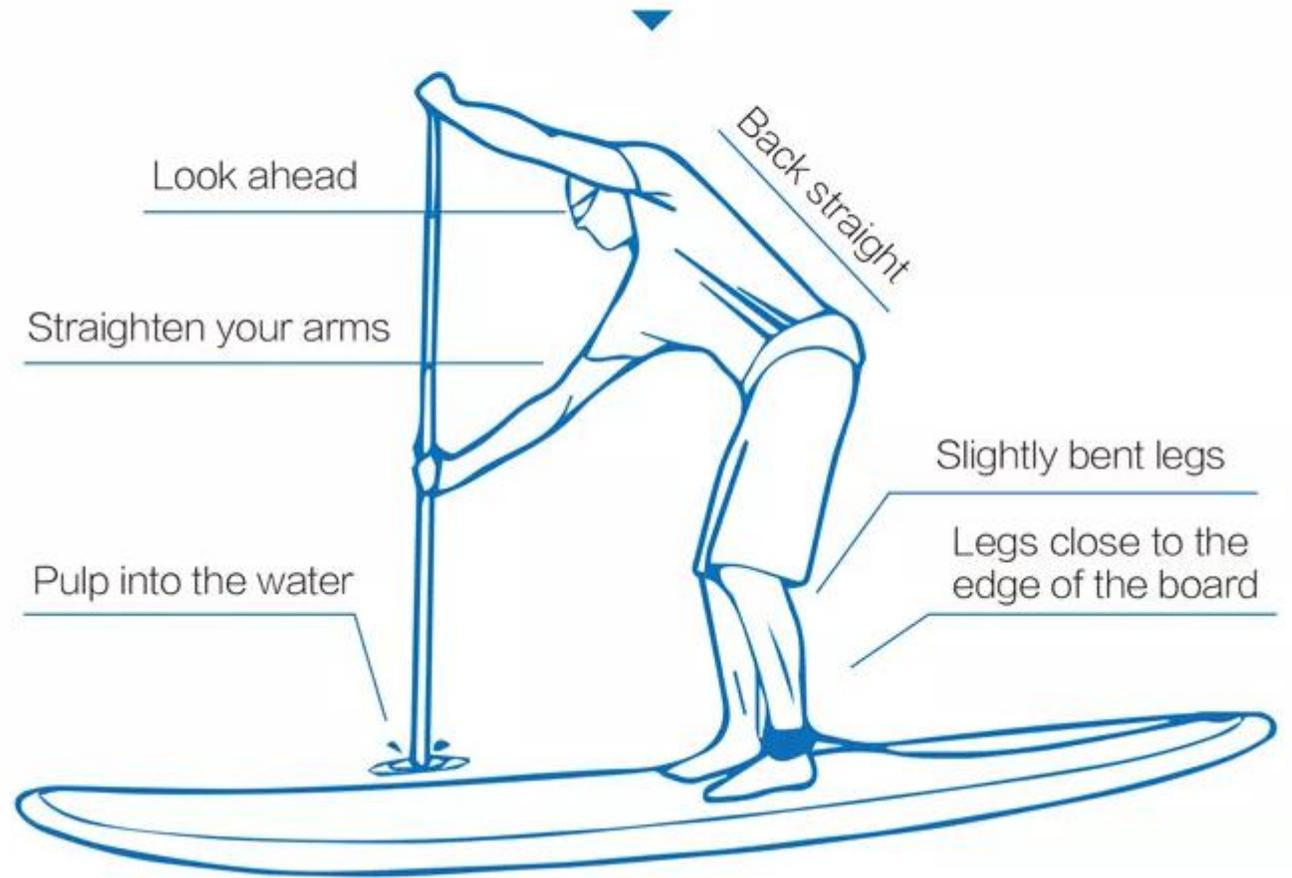

TIPS: The length of the paddle should be 15-20cm longer than your height.

Holding an oar requires holding the handle at the top of the oar with one hand and the middle of the handle with the other. The surface of the oar is directional, and the tilting side of the oar needs to be pulled forward. When the hand needs to be changed, the hand holding the top of the oar should be moved to the position of the other hand, and then the other hand should hold the handle of the oar.
